[Virgin Australia supports world premiere of Jurassic World: The Exhibition in Melbourne](#) [2]

Virgin Australia will be flying visitors to Melbourne for the world premiere of Jurassic World: The Exhibition, with the airline announced today as the exhibition's Official Airline Partner.

The airline announced the sponsorship with the release of a video featuring a Velociraptor alongside a Virgin Australia aircraft. Jurassic World: The Exhibition will be hosted at Melbourne Museum from 19 March to 9 October 2016.

Jurassic World: The Exhibition allows guests to get closer to dinosaurs than ever before. The exhibition features encounters with realistic, life-size animatronic dinosaurs set in highly themed environments inspired by the film. Paleontologist Jack Horner, who served as a Paleontological Advisor on the Jurassic World film, is working with the exhibition to create an interactive educational experience, allowing guests of all ages to learn more about these incredible prehistoric creatures.

Virgin Australia Holidays is offering unique flight and accommodation packages, which are available at www.virginaustralia.com/jurassic [3]. Dinosaur getaways include return flights with Virgin Australia to Melbourne, checked baggage, hotel accommodation and an exhibition flexi entry pass.

Members of Velocity Frequent Flyer, Virgin Australia's loyalty program, receive 20 per cent off all full-

price tickets to Jurassic World: The Exhibition.
